

Omote-sando, is known as a leading fashion area in Tokyo with international clothing brand shops. However, behind the main streets, you can find unique cafes, boutiques, small interesting galleries, a museum and even a pottery where you can enjoy some hands-on experiences.

In Sendagaya, there are some historic temples and shrines. While you're in this area, you could take a look at the new Olympic Stadium that will replace the old stadium (built in 1964). With a capacity of about 68,000, it will host all the athletics and football events for the Olympics and Paralympics 2020.

Enjoy your walk to amazing places that you won't find in any guidebooks.
